Complex works to the benefit of 4 of the human body systems.

What are these systems?

- Circulatory
- Cellular
- Gastrointestinal
- Metabolic

NATURAL INGREDIENTS

- Cherry extract
- Camu camu extract
- Mangosteen concentrate
- Goji berry concentrate
- Apple fiber
- Dandelion
- Cinnamon extract
- Clove extract
- Agave inulin
- Schisandra fruit extract
- Gymenma fruit extract
- Soursop extract
- Fucoidan polysaccharide
- Açai concentrate
- Artichoke
- Celery seed Verbascoside
- Cocoa
- Caffeic acid
- Green tea leaf
- Milk thistle

CAFFEIC ACID

Among the most outstanding ingredients of the complex is **caffeic acid**, an organic compound classified as a hydroxycinnamic acid. This compound is found in coffee in small amounts, normally found in plants and herbs. Its benefits are its immunomodulatory and anti-inflammatory activity.

Note, this compound is not the same as caffeine. Although it is obtained from coffee, caffeic acid is an antioxidant and caffeine is a psychoactive substance.
