

TRANSFER FACTOR

Know the benefits and
advantages of
consuming it

AUGUST 14, 2023

WHY CONSUME TRANSFER FACTOR?

14.08.2023 | MONDAY

BENEFITS

- Increases and regulates the immune response
- Reduces viral and bacterial infections
- Reduces allergies
- Benefits people with chronic diseases or conditions

WHAT IS?

It is an alternative resource that has the ability to regulate and increase the strength and activity of the immune system.

It provokes and directs our immune system about germs, bacteria or viruses before they invade the body.

It is effective when taken orally and has proven useful at all ages, from childhood to old age.

This supplement improves our quality of life by contributing to the balance of our defenses.
