This product is not intended to diagnose, treat, cure or prevent any disease.

HC 4TIFY PREMIUM ANTIOXIDANT BLEND

It is a blend made from super-fruit extracts — açai, fucoidan and mangosteen — which is rich in essential fatty acids, antioxidants, vitamins and minerals. It is the perfect match to strengthen the immune system.

It ensures the correct functioning of the cardiovascular system by reducing oxidation and formation of atheromatous plaque in blood vessels, which prevents degenerative vascular diseases.

The concentrates used to make HC 4Tify are carefully selected from its harvest to ensure the maximum benefit for your health. HC 4Tify boosts the immune cells function by promoting the generation of lymphocytes (defense cells) and its response to infectious diseases.

PREMIUM ANTIOXIDANT BLEND

ACTIVE INGREDIENTS

AÇAÍ

Wild fruit from the Açazerios tree, native to the Amazon forest related to northern Brazil.

Its fruit has been used for thousands of years by natives due to its many medicinal uses. Açai berries are rich in antioxidants, vitamins, minerals and fatty acids such as omega-3, 6 and 9 which provides your body with energy and improves the nutrient absorption.

RESVERATROL

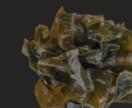

It is a stilbenoid found in particular products, such as the skin of grapes, blueberries, raspberries and berries.

It is used to reduce symptoms related to allergies and respiratory tract infections. Resveratrol is a powerful antioxidant that functions as an anti-inflammatory and reduces muscle aches and pain caused by varicose veins. In addition, it protects the vascular system against atheromatous plaque in blood vessels, which reduces the risk of heart and myocardial attack. Its properties help reduce cancer cell proliferation and growth.

BENEFTIS

- Strengthens your immune system in order to reduce viral infections caused by bacteria, fungi or parasites
- Delays the cell ageing process
- Supports mechanisms for chronic or degenerative disease prevention
- Improves your circulatory system
- Balances your hormones
- Its ingredients contain anti-cancer properties
- It Supports an optimal muscle function by reducing inflammation and limb numbness
- Contains properties to regulate your cholesterol and triglyceride levels in order to stabilize blood pressure and heart rate

FUCOIDAN

Polysaccharide found in seaweed such as Mozuku, Kombu and Hondawara. It is native to Asia, mainly Japan. Fucoidan has anti-tumor, antioxidant and antiinflammatory properties. In addition, it helps fight infections in the body while boosts the immune system response.

MANGOSTEEN

It is an exotic fruit native to Asia, mainly Indonesia, obtained from tropical evergreen trees. It contains B and C vitamins, calcium, iron and magnesium to provide the body with antioxidant and regenerative properties. Mangosteen is rich in xanthone phytonutrients, which support the immune system. Its high fiber levels help regulate bowel transit.

HOW TO USE:

- Recommended Use: Drink 1-2 fl oz daily.
- Keep refrigerated after opening.
